

TST Expedited Services

A TransForce Company

TST Expedited Services

COMPANY PROFILE

Since May 14, 1982, companies like yours have relied on **TST Expedited Services** for quality and reliability in expediting their shipments both internationally and domestically throughout North America.

TST Expedited Services is a large surface and air expedite carrier providing transportation for time-certain, time-critical, unscheduled and emergency door-to-door freight.

Utilizing a network of hundreds of TST satellite equipped drivers with cargo vans, straight trucks and tractor trailers, along with hundreds of partner carriers, we have total North American coverage, including Mexico. Whether your shipment is going from Atlanta, Georgia to Detroit, Michigan or from Detroit, Michigan to Toronto, Ontario, Canada, we have the experience and resources to meet your requirements.

Our creation of customer service teams, along with continued investment in our state-of-the-art, award winning, leading-edge technology, **TSTracs™** provides real time information, which allows for good decisions and your ultimate success.

SMARTRAX™ is a system that accesses our software, to get real time information, allowing you to "ping" an exact location on the vehicle moving your shipment. As well, **SMARTRAX™** also facilitates the tracking of prior shipments and the paperwork that lets you produce your own customized reports.

In our recent change-over to utilizing a third party Logistics Company, it was imperative that TST Expedited be migrated across to allow our expedited freight to continue to be moved smoothly. This was accomplished by TST. We depend on TST Expedited Services for their reliable emergency service.

Tom O'Connor, General Supervisor Transportation & Logistics, Electro-Motive Global Supply Chain

CROSS BORDER EXPERTS

Now more than ever, importers and exporters alike need the experts to move their freight between Canada, the United States and Mexico in the most expedient manner.

With the on-going changes in custom's procedures, whether it is ACE, FAST, CSA, PAPS or PARS, our team of international freight professionals, along with our state-of-the-art award-winning, leading-edge technology allows your freight to move across the border flawlessly.

Our on-time pick-up and delivery as directed by our customer is timely and accurate. The expedite market is the fastest growing segment of the transportation industry and, as this emergency style of shipping continues to grow, so will the demand for our specialized services.

TST Expedited Services welcomes the opportunity to integrate our business system, with yours, to provide improved

supply chain efficiencies. We have a trained staff of technology professionals with years of transportation, manufacturing and distribution experience. Each customer has unique requirements and it is our mission to understand and deliver exactly what each customer needs.

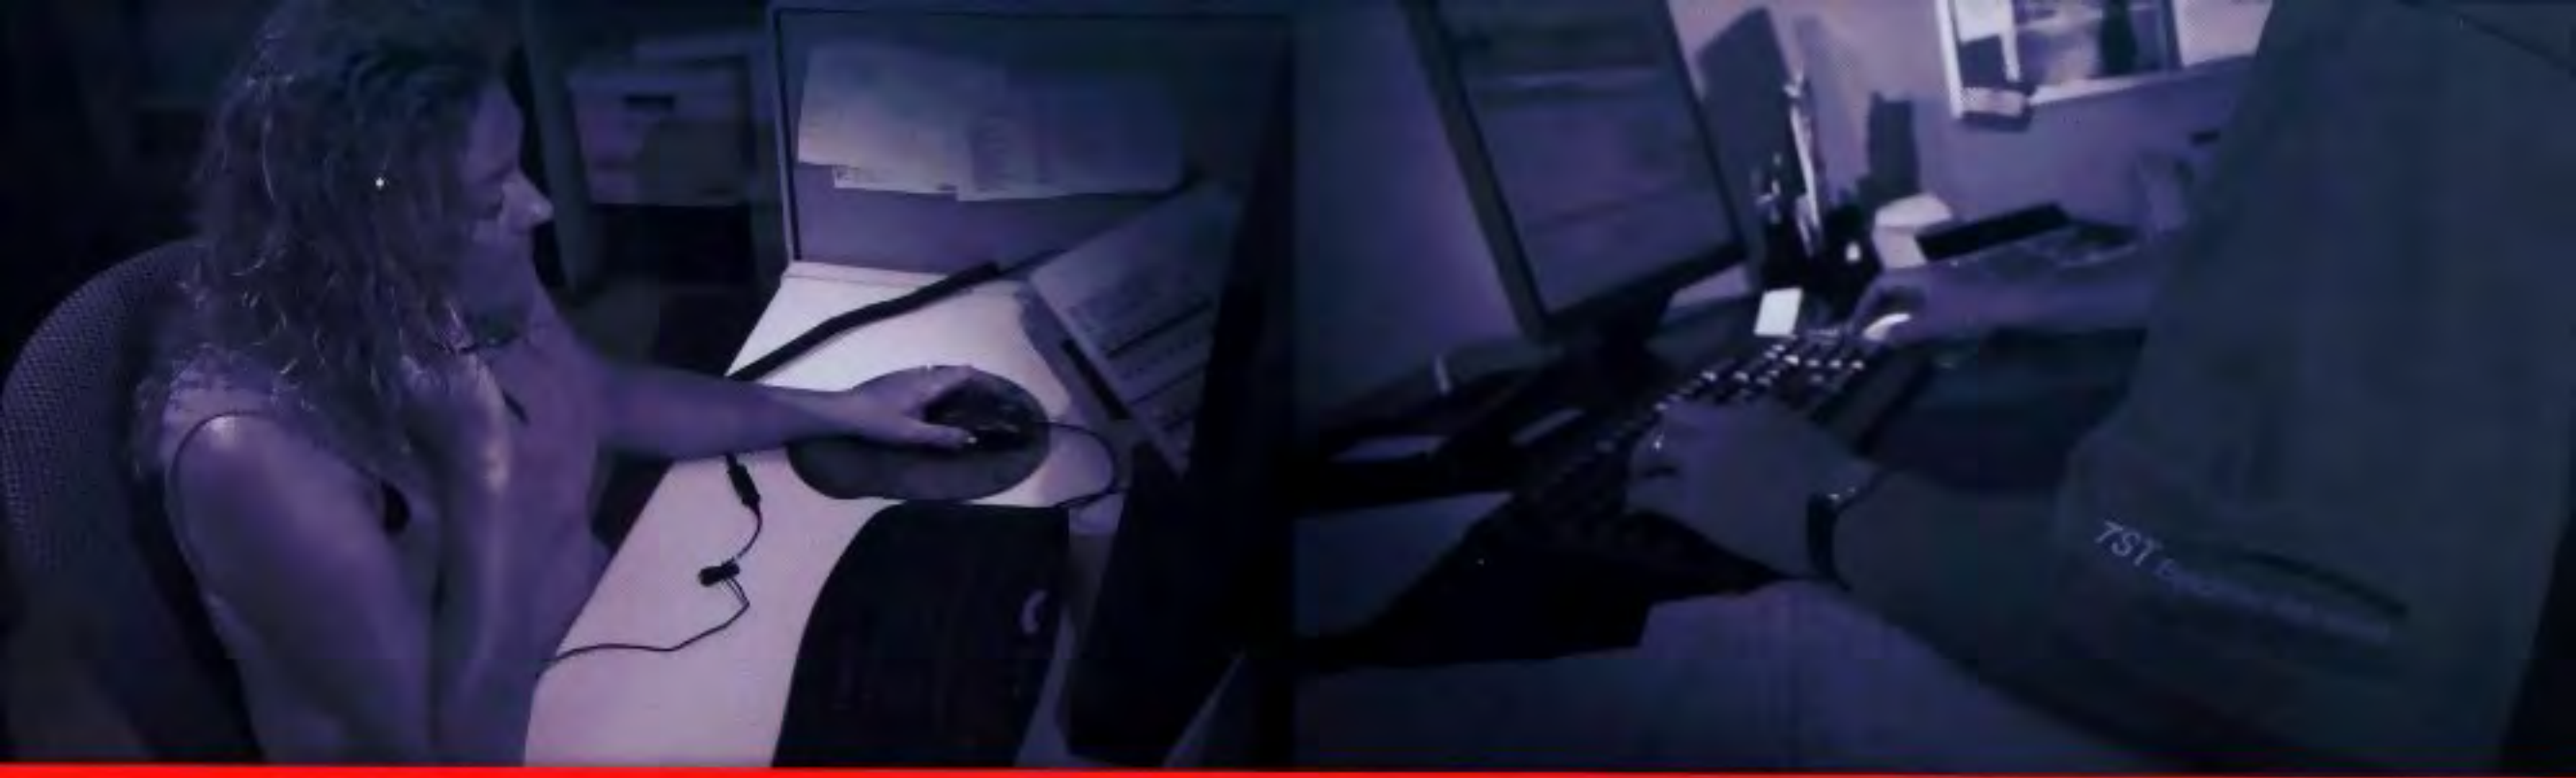

As a member of C-TPAT, FAST and PIP, we have made a commitment to assist U.S. Customs in enhancing the security of our borders to promote the efficient flow of international trade. This will secure the supply chains against possible compromise.

As a contemporary provider for your time-critical transportation needs, we do more than provide you with cost-effective choices for expedited service. We're about your satisfaction!

Our commitment and dedication to provide on-time service has positioned us as one of the top cross-border professionals.

CREATIVE TRANSPORTATION SOLUTIONS

Our success over the last 25 years is attributed to the close business relationships with our active customer base of over 2,000 companies.

Our customer service teams allow us to have the special, intimate relationship with you, our customer, giving you the service of a small carrier, but the resources of a large expedite carrier.

Customers have grown to expect the difference that we have worked hard to achieve in the marketplace. With a strong and tenured group of sales people, customer service teams, support personnel and a highly experienced management team, we are all working together to bring forth new creative and innovative ways of delivering the highest quality service for our customers.

Let our rich history and today's forward thinking team at **TST Expedited Services** move your next shipment - you'll be glad you called!

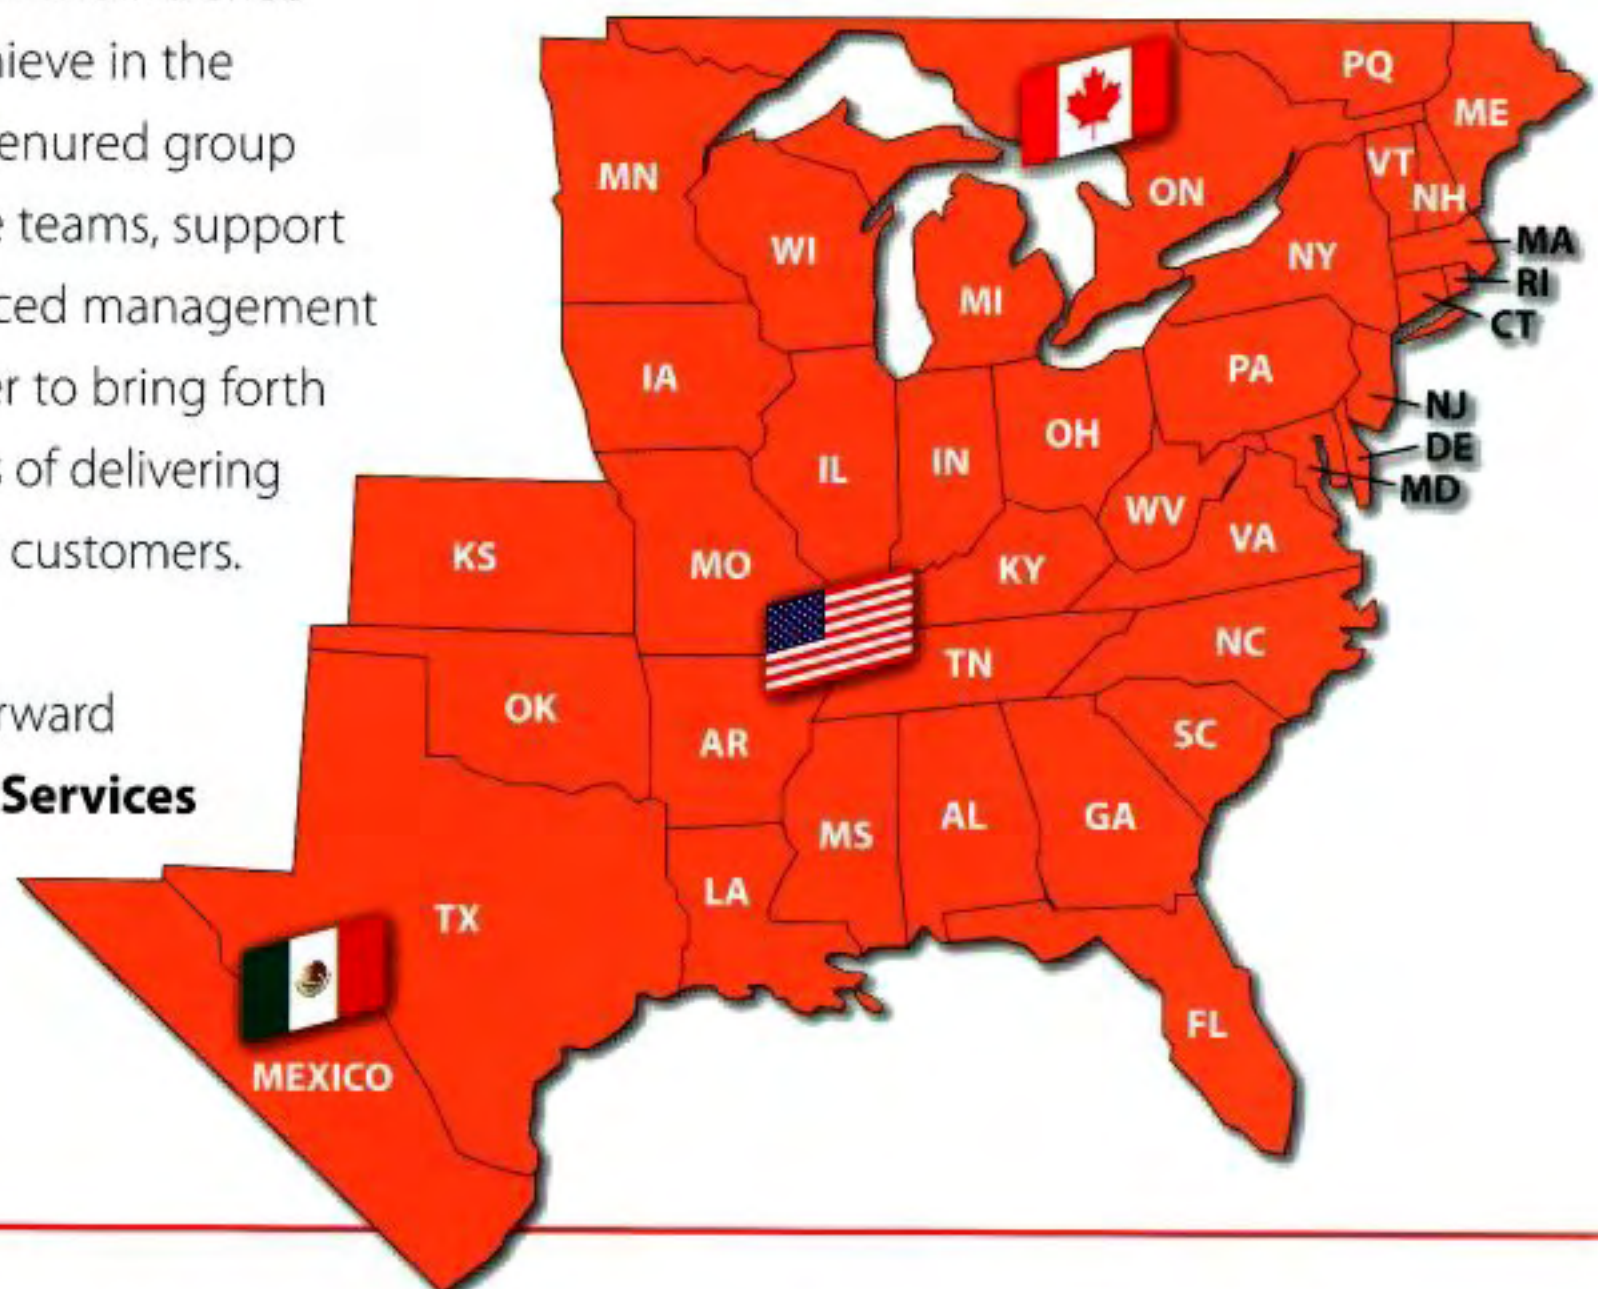

CUSTOMER CALL CENTRE

From anywhere in North America, our Customer Call Centre will help you with all your questions.

- Track, Trace and Transit Times
- Customs Documentation and Assistance
- Pricing Information

We personally answer the telephone 24 hours a day, 7 days a week. **1-877-487-8911**

PRIMARY OPERATING AREA

I use TST Expedited because they have an e-mail feature that links me right to my order so that my tracking is done instantaneously; with my busy schedule every second counts, I cannot afford to be put on hold while waiting for a dispatcher to find this information out. When I need critical expedites, I always call TST Expedited first.

Marc Mallais at Ontegra Etobicoke

TST COVERAGE PLUS

TST COVERAGE PLUS IS YOUR SINGLE-SOURCE EXPEDITED SPECIALIST, OFFERING EFFICIENT SHIPPING SOLUTIONS. IF YOU'RE TIRED OF MAKING MULTIPLE CALLS WHEN YOU NEED TO COVER YOUR EXPEDITED LOAD, RELY ON TST EXPEDITED SERVICES. WHEN TIME IS OF THE ESSENCE AND YOUR SHIPMENT HAS TO BE THERE, TRUST TST'S EXPERIENCE AND CAPABILITY FOR DELIVERING YOUR GOODS. WE NOW OFFER MORE CAPACITY AND MORE COVERAGE, UTILIZING OUR NETWORK OF PARTNER CARRIERS.

ANYTIME, ANYWHERE SUPPORT

EXPECT IT!

ANYTIME, ANYWHERE SUPPORT EXPECT IT!

SMARTRAX™ is the name we have reserved for our internet-based information delivery service. As its name implies, **SMARTRAX™** provides our customers with an efficient way of managing their time-sensitive, high value emergency freight. Customers gain immediate and direct access to information that has a major impact on their business, from the convenience of their computers. Vital information such as ETA and truck location will show up on a map of North America, including the street address, in real time.

Every TST Expedited Services truck is equipped with a satellite messaging and Global Positioning System for instant shipment inquiries. This custom built, award-winning technology allows a proactive response that constantly monitors your freight.

SMARTRAX™ will allow you to take control of your shipments and will notify you and your customers automatically about significant events as they occur, via email.

- Place shipping orders online
- Review historical loads, create reports to analyze your shipping patterns, view invoices and paperwork online, and more
- EDI capabilities
- National award-winning technology
- Live, interactive track and trace capability
